

# ADI

Illustrator &  
Visual Artist

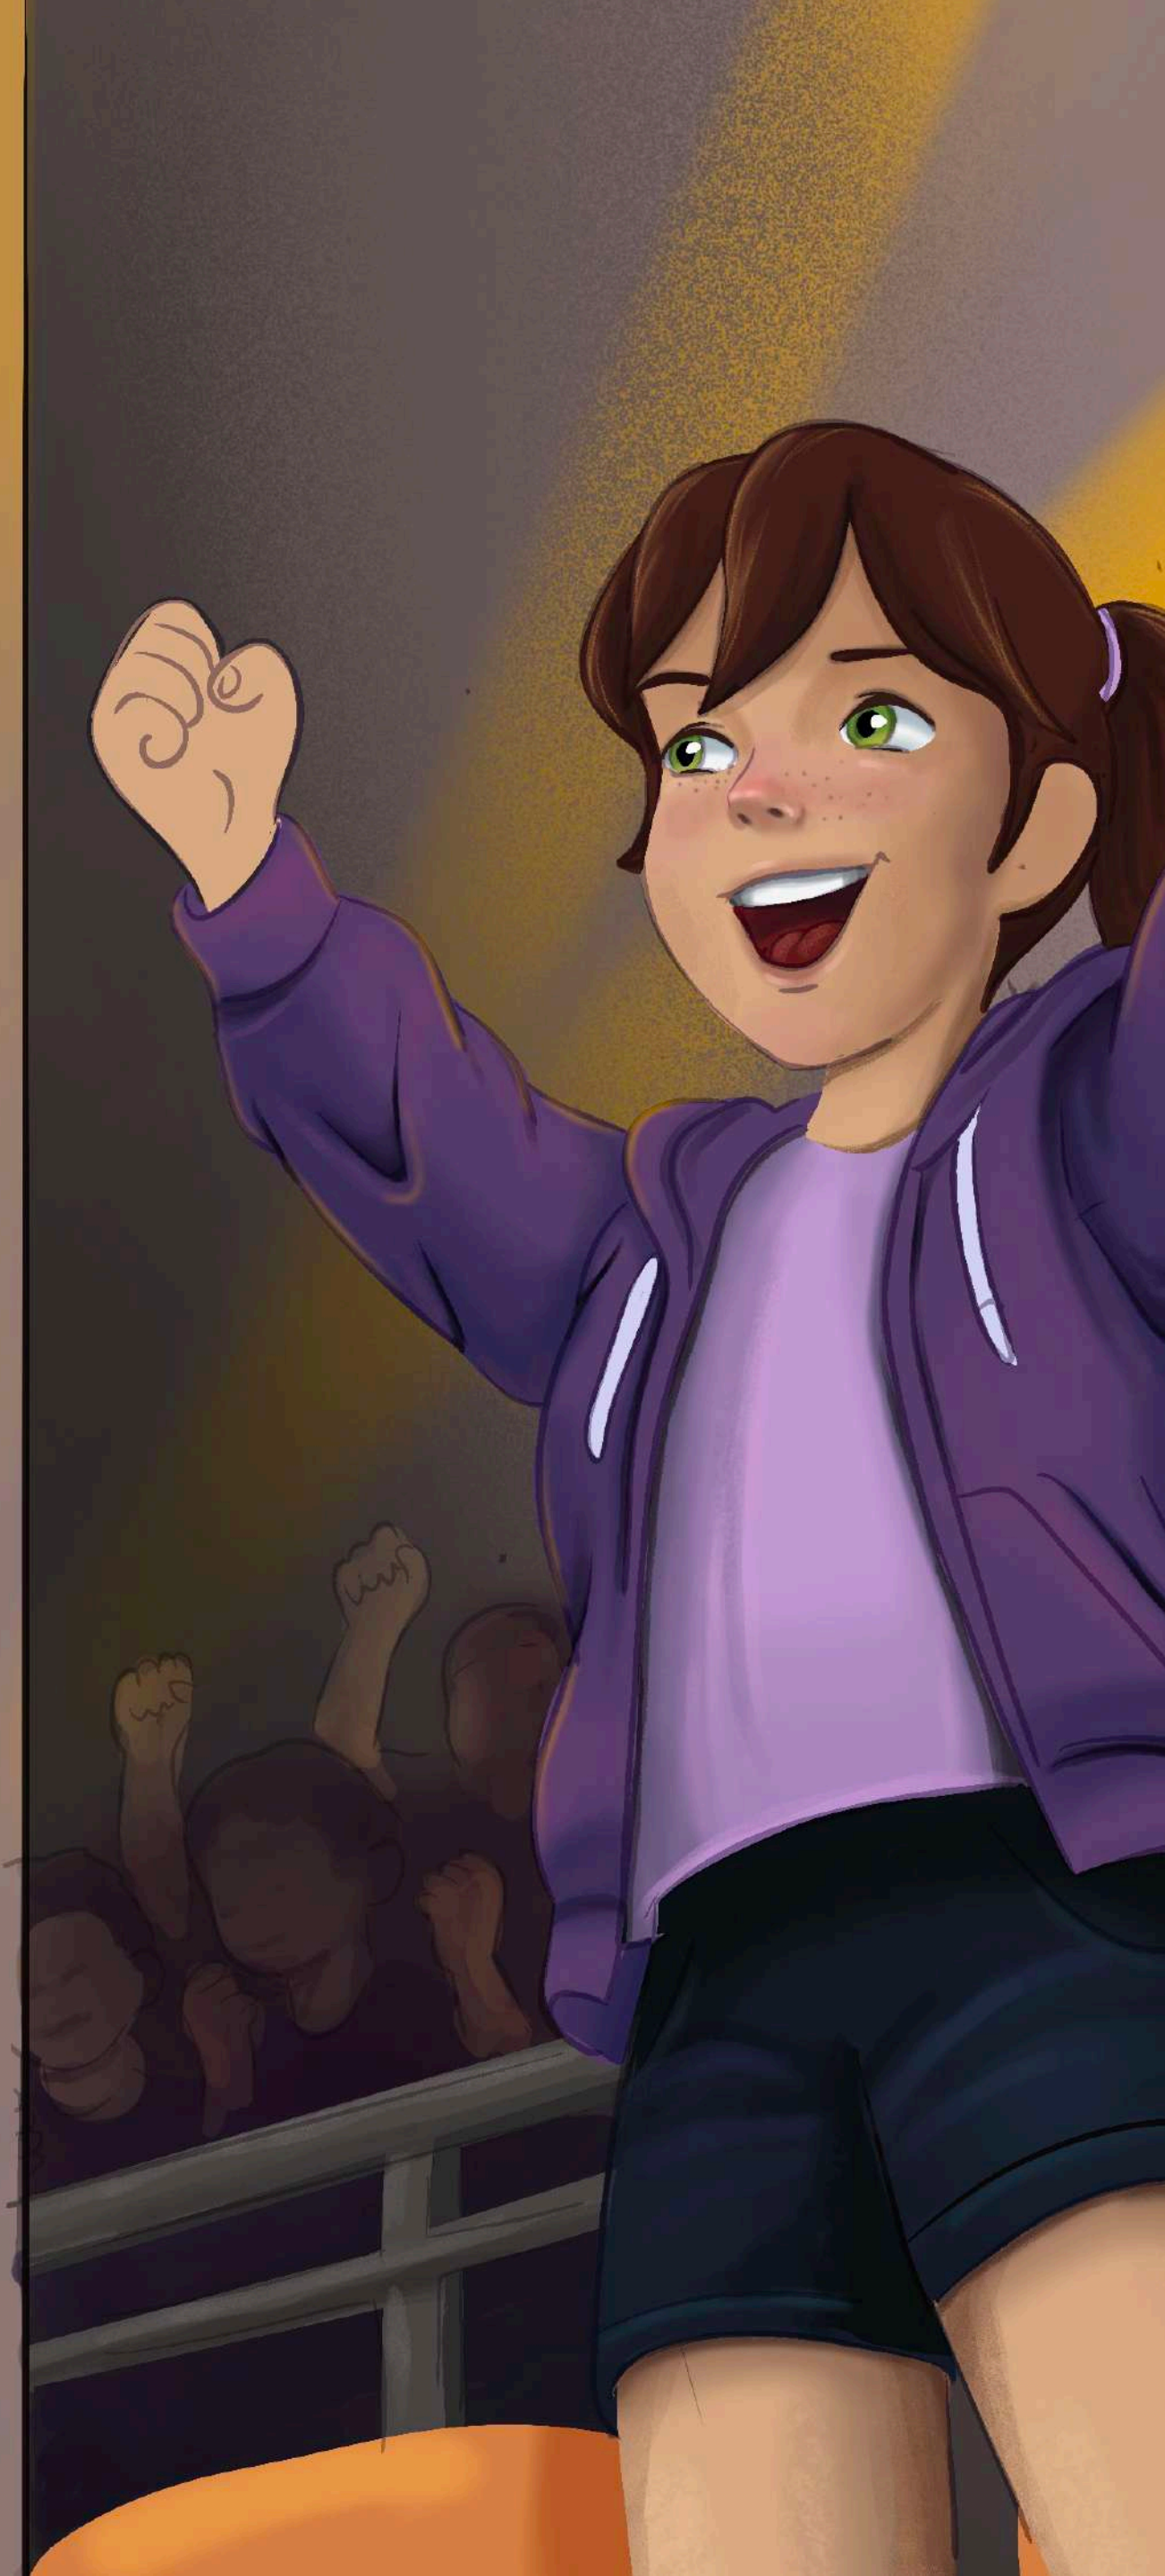

# BADASH

I'm a digital illustrator specializing in expressive, story driven illustrations for children's books. My work is characterized by rich colors, warm lighting, and detailed environments that create depth and a sense of wonder. I work digitally on the iPad and keep the warmth and personality of hand-drawn art. I'm known for being kind, communicative, and easy to work with. What matters most to me is making sure my clients are truly happy with the result, and that the final artwork matches their vision and even exceeds it.
